The affidavits are made by W. L. Graddy, A. J. Wofford and H. F. Johnson, and charge that prior to the trial they heard both the jurors Renshaw and Neal say that they were convinced that Howard was guilty, and if accepted as jurors they would vote to hang him.

SENT OUR REGRETS

Secretary Hay Now Believes We Were Buncoed.

Latest About Chinese Muddle Seems to Verify Contention That Demands Were Pure Inventions.

MINISTER CONGER GOT MIXED

Washington, May 2.—Secretary of State Hay has sent to the Russian ambassador, for transmission to St. Petersburg, a note in which he expresses regret that the United States should have been led into even a temporary misconception or doubt as to Russia's position in Manchuria.

Mr. Conger, our minister at Pekin, cabled the alleged Russian demands on China to the state department. The Japanese seem to have got a "beat" on the other diplomats at Pekin, but peddled it around as a thing too good to keep. Mr. Conger, when asked if he was sure of his facts, is said to have admitted that he obtained them, first from the Japanese, and claims to have verified them by personal investigation. Trusting Mr. Conger, whose remarkable misreading of a cypher dispatch at the time all the powers were about to sign their agreement at Pekin in 1901, might have been remembered with profit, Secretary Hay sent a cablegram to Pekin urging the Chinese government not to sign the alleged Chinese agreement and an inquiry to St. Petersburg was accepted by the Russian government as a virtual declaration on the part of the United States that it believed the information that had been sent from Pekin.

INSURANCE TRUST.

THREE LARGE NEW YORK CONCERNS UNITE TO STOP RATE CUTTING.

New York, May 2.—Instructions have been sent out to agents of three big life insurance companies, which indicate that the companies are to form a combination. The companies are the Mutual Life of New York, the New York Life and the Equitable. The instructions say: "We have decided, after giving the matter very careful consideration, that it is for the best interest of the life insurance business generally to cease the publication and circulation of comparative and competitive literature."

Special reference is made in each circular to the other companies. The instructions continue, that not later than June 1 all competitive and comparative material in the possession of the agents must be destroyed and they must not encourage or aid any hostile criticism under penalty of dismissal. In addition to stopping hostile tactics, it is reported that the arrangement means an end of private rate cutting.

CLEVELAND A POSSIBILITY.

ENTHUSIASTIC RECEPTION TENDERED REVIVES TALK OF THIS NATURE.

Washington, May 2.—The enthusiastic reception given ex-President Cleveland in St. Louis has revived talk in Washington of the possibility of his nomination by the Democrats in 1904. The report reaches here that the sentiment in the south is steadily growing in favor of his election. Though it is a long time before the Democratic convention meets, the talk of Cleveland and the enthusiasm manifested on his western trip has made a considerable impression.

SUICIDE BEFORE SCHOOL.

WEEK'S NEWS IN THE BUSINESS WORLD

Clearings this week \$658,240
Same week last year 683,278
Decrease 25,038

Clearings this week show a slight falling off from the same week last year. Business with the banks however has been very active. This week in last year was an exceptional one, and for that reason the clearings this year show the decrease noted.

Wholesale trade in all lines is very good with the outlook for a continuance of good business. The season is still backward, the continued cold weather hurting some, but general re-

ports are good. The booking of orders for fall shipments were never as heavy as they have been with Paducah drummers the past few weeks and this is an indication that every one expects a big trade this winter.

Manufacturers report splendid bookings of orders and factories running full time with the best prospects for the future.

Retail trade is good. Especially is this so in the furniture line. Local dealers report the past week as the biggest in their history.

Real estate is fairly active with a number of trades being made.

RUSSIANS SURPRISED

At the Protests That Came From the American People.

Rumored That Russia Will Yet Attempt to Carry Out Her Program.

St. Petersburg, May 2.—Russia's backdown in Manchuria is complete, although the controlling spirits in the government are still determined, unless confronted with actual war, finally to consummate the annexation of the province. It must be admitted, however, that these statesmen, for the first time are thoroughly discouraged by the outlook. Their latest maneuver elicited a far more dangerous outcry than they anticipated from the three great interested—Japan, England and the United States. Just now the czar advisers do not see how the opposition to their plans can be made less formidable in the future.

The attitude of the United States, and particularly of the American people, caused an especial shock here.

The foreign office expected a platoned demur from Washington, but had no idea that the press and the people of the United States would be thrown into a state of anger that might impel the government to use force to keep the door open to American trade in Manchuria.

Of course the czar's advisers saw that forcible measures on the part of the United States would inevitably lead to similar measures on the part of Japan and Great Britain. Consequently the bold position taken up at Pekin became untenable. It is even feared that it may prove a boomerang of the worst sort, as China stimulated by the allied anti-Russian interests, is likely to offer an effective check to Russian encroachments along the whole length of the northern frontier.

Russian jingoes assail M. Witte, minister of finance, on the ground that his hostile sugar policy accounts for America's unfriendliness toward Russia's policy in the Far East. While the contention is absurd, it is highly probable that henceforth one of the main purposes of St. Petersburg diplo-

Formal Opening of Recreation Ground Next Week.

The Physical Culture Class Will Have Its First Meeting Monday Evening.

Wednesday afternoon the formal opening of the tennis, roque and recreation grounds of the Y. M. C. A. located near Seventh and Court streets, will take place and this will be a gala day for the young people.

The ladies' committee has charge of the opening of the grounds and will serve refreshments. There will be match games in both tennis and roque by the best players in the city and an interesting time is assured. The hours are from 4 to 7 and no doubt the grounds will be packed.

The courts are the finest in the state and the management feels justly proud of the fact. Laborers have been at work on the courts for several weeks and not a flaw can be found.

Miss Jeannette Campbell has charge of the proposed show to be given by the association soon. She is now forming plans and will make announcements later. This will be one of the best amateur performances ever given in the city.

The class in physical culture will begin Monday at 7 o'clock and will be drilled for half an hour. This is the same course taught by Prof. Adams who was here last month, and all members of the association can be members of the class at their will.

The ladies' committee will meet this afternoon at 4 o'clock at the association to formulate plans for the show and other matters pertaining to the association.

MEN AND HORSES BURNED.

New York, May 2.—Two negro stable laborers and thirty valuable horses were burned to death last night on Long Island.

Many will be to get on such terms with the United States as will moderate that country's opposition to Russia in China.

QUICK FIRING GUNS

Large Quantities of Ammunition Being Shipped by Russia.

Balkan Troubles Are Increasing and Russia Is Preparing for War.

OZAR FITS OUT A SQUADRON

London, May 2.—The Mail's correspondent at Moscow sends the following information by mail, in order to escape the censor:

"I am privately informed from Odessa that the six volunteer fleet cruisers now in that port are shipping quick-firing ordnance and mountain guns, as well as large quantities of ammunition for those weapons. All the officers and men of the fleet on furlough have been recalled."

"The Odessa garrison, consisting of 31,000 troops, is held upon a complete war footing."

The fact that mountain guns are being shipped leads to the belief that the movement is in connection with the Balkan troubles.

STATE OF SIEGE.

Constantinople, May 2.—A state of siege has been proclaimed at Salonica, and extraordinary military precautions have been ordered everywhere in the empire, as it is anticipated that outrages similar to those perpetrated here yesterday, may be attempted at Constantinople and elsewhere. The action of the Macedonian committee in directing attacks on foreign property was evidently with the view of provoking the intervention of the powers. It is feared the outrages may lead to massacres of Macedonians and Bulgarians by Mussulmen, who are in a state of dangerous excitement.

OZAR ASKS FOR MERCY.

Constantinople, May 2.—The czar has requested that the sentence of death passed upon Ibrahim, the Albanian sentinel who recently assassinated M. Stecherpina, the Russian consul, be commuted to penal servitude for life.

TEN PER CENT

INCREASE GRANTED N. C. & ST. RAILWAY EMPLOYEES.

Nashville, Tenn., May 2.—Track, train and locomotive employees of the Nashville, Chattanooga & St. Louis railway were yesterday voluntarily given an advance in wages which amounted to a general increase of about 10 per cent in the pay of all the road men, slightly less in the pay of trainmen and an adjustment in the case of the engineers which will mean much more than that amount to some of them, while others, who were already drawing proportionately more than their fellows, will remain under the old schedule. The advance took effect April 1 and was only known when the men received their pay yesterday.

TRIAL ON ITS MERITS.

Jackson, Tenn., May 2.—In the federal court the demurrer of the city of Lexington to \$2,380 interest to St. Louis railroad bonds was overruled and the corporation of Lexington will have to go to trial on the merits of the case. At the time the road was built leading citizens subscribed \$20,000 of stock, with the understanding that when the legislature met the city would vote to issue bonds to cover the amount. This was done, and the bonds floated, but an effort has been made for the city to be relieved of the payment of the interest and bonds. This led to the suit.

TENTH DEATH AT

PEWEE VALLEY.

Pewee Valley, Ky., May 2.—The tenth death at the Confederate Home occurred yesterday, when Veteran W. H. Hubbs passed away. His death was due to consumption. He was 72 years of age. His home was at Upton, Hardin county. Mr. Hubbs was a member of Company H, Sixth Kentucky Infantry, and served from September, 1861, until June, 1863. He was sent to the home by Cofer camp.

RAINS CHECKING FOREST FIRES

FORESTS FIRES IN CANADA.

Montreal, Que., May 2.—Extensive forest fires are raging about 50 miles north of here, between the towns of St. Jovite and Labelle. The village of Morrison, containing a mill and about a dozen farm houses, was entirely destroyed and the flames were so severe on both sides of the Canadian Pacific railroad track that people could not stand on the platform as the train rushed through. The people are leaving their animals and possessions a prey to the flames.

RAINS CHECK IT.

Oil City, May 2.—The heavy rains have checked the forest fires which have been raging in Venango, Forest and Warren counties, but not before vast tracts of valuable timber had been destroyed, crops ruined and a number of dwelling houses consumed.

At Kinzua two big saw mills were burned and scores of derricks and small tanks filled with oil were licked up. The total loss in the district between Tionesta and Warren alone is estimated at \$200,000.

Condertport, Pa., May 2.—Edward Hill, who has been living in the county near this city, was found this morning burned to death, being surrounded while saving his property. The loss in property in this neighborhood is thus far over one million dollars.

SNOW'S GOOD WORK.

Plattsburg, N. Y., May 2.—A heavy snow storm set in over the Adirondacks yesterday, practically checking the fierce forest fires that have spread rapidly in the last week. The temperature dropped about 50 degrees.

TO STUDY AGRICULTURE.

GERMANS COMING OVER TO INSPECT FARMING AND STOCK RAISING.

New York, May 2.—Forty-six German agriculturists will arrive in New York today. They will cross the continent and make a trip of 10,000 miles to study methods of farming and stock raising. Among them will be feudal land barons, scientists in the government service and students of agriculture. J. L. Schultz, of the United States department of agriculture, is here to meet the visitors, and two special cars are ready to take them on their long tour. They will travel by a southern route to California, up the Pacific coast and return to the Atlantic through the northern tier of states.

The trip has been arranged to enable the visitors to inspect the great wheat regions of the west, the orchards of the north, the stock farms of the south and west and the packing houses of Kansas City and Chicago. The tour will occupy nearly two months.

RUSSIAN EXILE

ESCAPES FROM SERVITUDE AND STOWS AWAY ON A JAPANESE LINER.

Honolulu, May 2.—The Japanese liner Nippon Maru, which arrived from the Orient yesterday had among her passengers a Russian exile, named Ivan Von Boninski, recently escaped from Saghalin Island. He boarded the vessel at Yokohama as a stowaway. When discovered he said he was the son of a wealthy resident of St. Petersburg. While a student at a military college he was convicted of rioting and with a number of others was sent to Saghalin Island. Here two of them died before Von Boninski with another student made his escape. On hearing his story the passengers on the Nippon Maru purchased a first class passage for him to this port. He will join the Russian colony near Hilo.

PERFECT ASSIMILATION

Some people eat heartily, even ravenously, yet nothing seems to "stick to their ribs". Others don't eat much, but assimilate all nutriment in the food and get fat. We have letters from people who say that

Dr. Caldwell's Syrup Pepsin

makes them fat. It doesn't. It simply gets their digestive organs in shape to take the nutriment out of the foods which they eat. It also acts as a gentle laxative and tonic. Please try it.

A. G. Jones, of Hortonville, Ind., writes: "I can say for Dr. Caldwell's Syrup Pepsin that it is one of the best medicines I ever have taken. In just sixty days after I began to take your medicine, I had gained 30 pounds in weight, felt like a new man and I can highly recommend it to any one who is troubled with indigestion or dyspepsia."

SPRING AILMENTS.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is that during winter there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect fully restore the wasted tissues and give strength in place of weakness. 50c at DuBois, Kolb & Co.

The Ottoman bank in Salonica was destroyed by dynamite Thursday by insurgents. Other buildings were attacked and two persons were killed and two injured. In a battle Wednesday eighteen Bulgarians were killed and in another clash Tuesday more than a hundred were annihilated.

GOOD SPORT

Boxing Bout at the Kentucky Last Night Interesting.

Draw Fought by Randall and "Alabama Kid"—Matthews and Heller Also.

The boxing bouts at The Kentucky last night were more than interesting and kept the sports shouting for several hours. The bouts were given by Messrs. Lee Hood and Frank Johnson, treasurer and stage manager at The Kentucky, as a benefit, and both were well rewarded with a large attendance and have cleared quite a neat little sum.

The first bout was between Walter Shannon and Fred Blanks, colored, and was won by Shannon. This was a five round bout. Zack Bryant acted as time keeper and Will Dicke referee.

The next bout was between Lou Heller, of Cincinnati, and Kid Matthews, of St. Louis, both white professionals. This was a draw. Will Dicke refereed.

The next bout was the star bout of the evening. The principals were "Alabama Kid" and Hurley Randall, colored, semi-professionals. The first three rounds were strong but towards the last the two became afraid of each other and tamed the fight. At the close of the tenth round the fight was declared a draw by Lou Heller who refereed.

Alabama Kid defeated Randall in the Jeffries-Fitzsimmons preliminary fight here and both were pretty anxious to win, the former to sustain his reputation and the latter to regain what he had lost.

DISASTROUS FIRE

CAIRO SUFFERS A \$20,000 LOSS YESTERDAY.

Cairo, Ill., May 2—Fire yesterday destroyed the building owned by Major E. W. Halliday at 511 Ohio levee and badly damaged the building adjoining, entailing a damage amounting to \$20,000. The building adjoining was occupied by the Three States Lumber Co. and by McCarthy & Malinski's foundry. All parties are insured.

CURES WHEN DOCTORS FAIL.

Mrs. Frank Chiasson, Patterson, La., writes June 8, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." POPULISTS EMIGRATE

TO MEXICO.

Fort Worth, Tex., May 2—The sale of 400 Greer county, Okla., people to Mexico, was brought about because of the fact that Greer county has become Democratic and the colonists are Populists and desire to settle where they will be under their own domination.

The first installment of them, 130, has already left via Fort Worth and Houston. The colonists will settle thirty miles east of Essendon, in the state of Tamaulipas, and have bought 250,000 acres of land. They will engage in farming and cattle business. The families of the colonists will remove to Mexico later.

REMAINS IDENTIFIED.

Mrs. Lizzie Reed of St. Louis came to Metropolis yesterday and identified the floater found near that city as the body of her son, Willis Reed. The remains had decayed so greatly that she had them buried at Metropolis. He is the boy who walked off the Dick Fowler last week and was drowned.

GEN. MILES STIRS UP A ROW.

HIS ENEMIES CLAIM THAT HE HOPES TO SECURE PRESIDENTIAL NOMINATION.

New Orleans, May 2—A Washington telegram to the Picayune says: General Miles is now charged by his enemies in the war department with being a candidate for the Democratic presidential nomination. This alleged ambition is given by them as the cause of his report on atrocities in the Philippines, which was reluctantly made public by Secretary Root yesterday, after a delay of two months.

Some of his enemies go so far as to express the belief that influences back of General Miles will be strong enough to secure his nomination by the Democrats and the adoption of "anti-imperialism" as their battle cry. It is asserted that prominent Republican anti-imperialists have been working to this end for more than a year, and that by the time the Democratic national convention is held they expect to be able to give assurances of sufficient support to bring about General Miles' nomination.

CLEVELAND TO HASTEN HOME.

EXPECTED CALL OF THE STORK AT EX-PRESIDENT'S HOME WILL OUT SHORT WESTERN TRIP.

Princeton, N. J., May 2—Ex-President Grover Cleveland, who went to St. Louis, will not delay his return to Princeton. The stork is expected to pay another visit to the Cleveland home very soon, and Mr. Cleveland must cut short his western trip. Later, however, he plans to go on a long cruise with E. C. Benedict, who says his yacht will sail in New England waters all summer. Mr. Cleveland is to have an opportunity for good fishing and, perhaps, some duck shooting. The Cleveland family may spend the summer at Buzzard's Bay.

Neither Cleveland nor Hill is available presidential timber, according to Representative A. S. Burleson, of Texas. Gorman and Parker are both well liked, he says, because they are "regular" Democrats.

Irregularities

CHICAGO, ILL., 5902 Indiana Avenue, Sept. 25, 1902.

Wine of Cardui is superior to anything I have ever tried for irregularities. Three years ago I noticed that I became irregular but I paid little attention to it. Gradually the trouble became serious and affected my general health. The flow became scanty and very painful and I sought the doctor's aid. I soon found, however, that his prescriptions did not have the desired effect and when a friend recommended Wine of Cardui I decided to try it and procured a bottle. It helped me at once and I felt greatly encouraged when I noticed the change for the better. At my next menstrual period the pain was less and the flow better and within four months I was perfectly well, regular and without pain.

This is over a year ago and I have not suffered any pains or trouble since. Accept my sincere thanks for your efficient remedy.

Miss Adela Adams

Because Wine of Cardui cures women so simply, so quickly and so effectively it is the favorite medicine of women today. This medicine brings women health and freedom from sickness by the most simple process—Nature's own way.

While physicians examine and operate, Wine of Cardui works a cure without the humiliating publicity of an operation or the danger of the use of a knife.

Wine of Cardui strikes at the root of female trouble. It regulates the menstrual flow, making the function regular and healthy, an aid to health instead of a menace. A profuse flow weakens the blood and suppresses poisons. Wine of Cardui, by regulating the flow, gives life and strength to all the generative organs. Bearing down pains disappear and ovarian pains and weakness give way to health.

If you are suffering female weakness you should look after your case at once. All the organs are in sympathy and you cannot tell what a simple case of irregularity will run into if you let it alone.

Go to your druggist today and secure a \$1.00 bottle of Wine of Cardui. Take it in your home, in private, and you will thank Miss Adams for her advice.

HER ANSWER.

"Dear Nell," he wrote, "these violets I've made so bold to send to you. Shall be my mute ambassadors And each shall tell how deep and true The sender's love is, craving yours For him. What messengers more meet? Are they not typical of you. They are so sweet?"

"Dear Jack," she wrote, "your violets Have just this moment been received. Their message took me by surprise, 'Twas something scarce to be believed— I send my answer back with them, What fitter messengers for you? So typical of how you'll feel— They are so blue!"

APROPOS OF SOCIETY.

There has been more private entertaining done this week than Paducah society has known in some time. All of the parties have been exceptionally pleasant affairs, and rather extensive ones although claimed as "very informal." Several pleasant guests of popular people have been the cause of the revival of gaiety, and society has not been at all averse to doing them especial honor. Perhaps the coolness of the weather, too, has helped to energize society somewhat and to keep things moving notwithstanding the attractions in St. Louis which have drawn many out of the city.

Perhaps next week may be very gay, and perhaps it may be the lull before the carnival storm, there is little to forecast the social barometer as yet.

THE EIGHT HOUR LAW IN NEW YORK.

By a unanimous decision the New York state court of appeals has declared unconstitutional a law which made it a misdemeanor for any person or corporation, contracting with the state or with a municipal corporation, to require more than eight hours' work for a day's labor. The opinion holds that the law is not a proper exercise of the police power of the state, but unduly discriminates between different classes of contractors and between the same contractor working for the state and for a private party or for itself. It is conceded that the state has a right to protect women and children or adults from unwholesome or dangerous occupations.

"What possible bearing, has the fact that the employer is executing a contract for the construction of a state or municipal work? It might be constructing in the next town a road for a turnpike company or for itself. In the one case there would be no limit of the hours, and the corporation could get men to work without such limit, but in the case of state or municipal work it is made a criminal offense, despite the fact that the work and the hours might be precisely similar."

The law declared unconstitutional was the result of sympathetic agitation in New York state to secure the general adoption of an eight hour law. Anticipating the above decision the trade unions of New York have secured the passage of a law submitting the above question to the people in the form of an amendment to the state constitution. This amendment will be voted on in 1905. The people will then decide whether eight hours shall be a day's work in all state, county and city contracts.

It is hard for an outsider to understand all the moves that are now being made in Democratic circles in Kentucky. Immediately after the elimination of all opposition to Mr. Beckham comes the action of Mr. Meacham in withdrawing the case from the court of appeals that would have gotten an opinion as to his eligibility to serve another term, should he be elected. If Beckham was ineligible a week ago today he is so now, and every honest Democrat wants to have the question decided. It appears now that the question was raised for political purposes only, and now that there is no opposition to the governor for the re-nomination, the politicians are all willing to leave the matter to the next legislature to decide, which they trust will be safely Democratic.

Those \$88,000 fees paid Captain Calhoun by private contract with Governor Beckham which were such all important matters in the columns of some of our Democratic exchanges last week at this time, don't even look like 30 cents now to the late opponents of Mr. Beckham. But things may be different before November.

Interchangeable mileage books adopted by leading trunk lines of the country became effective yesterday.

CHILD'S PATHETIC LETTER.

SHE APPEALS TO THE TREASURER TO REDEEM A DOLLAR BILL.

Washington, May 2—There are many pathetic appeals for help in the daily mail received at the treasury department, but a letter from a little girl brought tears to the eyes of the old clerk whose duty it was to open and read it. It was from a little girl, and was as follows:

"Dear Mr. Treasurer: Inclosed you will find a very old \$1 bill which my papa gave me when he died. It is the first he ever made when he first went into the dental business. He told me to keep it until I got hard up and needed it.

"Papa has been dead two years. I need it very much now. I took it to the bank and they said it was too old, but papa once told me all United States money could be exchanged at Washington. Papa was all through the treasury about four years ago, with mamma. Maybe you met papa—he was a 33d degree Mason.

"We had lots of money then, but papa was sick two years, and Artie was sick two years, and it took nearly all our money. So now I must send this to you to exchange for a new dollar bill, as I need it. Poor papa would feel so bad if he knew we were in need of that dollar. It is not too old for you to exchange, is it? Now, good bye, from LITTLE —"

A new bill was sent in exchange, and there was a hint that something else went with it.

HAY FEVER UNKNOWN.

Certain it is, and many years of careful experience are back of the statement, that hay fever, and kindred annoying and troublesome summer affections distressing to so many thousands all over the country, recurring as regularly as July and August, are absolutely unknown in the "Highlands of Ontario." Thousands of people go to Muskoka, Georgian Bay or the Lake of Bays every year for nothing else but to avoid hay fever, and find perfect immunity from the ailment, and many by going there regularly for a period of a few years are said to be permanently cured.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

KENTUCKY SOLDIERS.

WERE COMPLIMENTED BY THE PRESIDENT AT ST. LOUIS.

St. Louis, May 2—After the parade Thursday night Orderly [Hardin Ragland, Battery E, has occasion to salute President Roosevelt, and the chief executive called the militiaman over to his carriage. Orderly Ragland saluted with military precision. "Orderly," said his excellency, "I want you to say to your fellow soldiers that I observed you in the parade this morning and I want to compliment your battalion on its excellent appearance in line. The Kentucky boys are splendid militiamen."

The Kentucky artillerymen are conspicuous by reason of their good behavior. The city is overrun with soldiery and great disorder prevails among them. The guard houses are full, and some soldiers fell into the hands of the police, but the Kentucky guard house is empty and none of the Bluegrass boys has had any difficulty.

"JOIN THE MILITIA"

GOV. NASH GIVES ADVICE TO IRON, STEEL AND TIN WORKERS.

Columbus, O., May 2—Gov. Nash urged the members of the Amalgamated Association of Iron, Steel and Tin Workers to join the militia. His remarks were made to the delegates attending the convention of the association, now in session in Columbus, who called upon him in a body at the capitol. The governor, after referring to the impression prevailing that the militia and organized labor are antagonistic, said:

"As I understand organized labor, the members are at all times willing and ready to protect the property of employers. If members of organized labor were members of the militia in times of strike and trouble where it was found necessary to call out the militia of the state they would then be in a position where they could protect the property."

EXPRESS ROBBERY IN MEXICO.

Mexico City, May 2—The fact that the Wells-Fargo Express company was robbed of \$42,000 at Silao last Thursday has just come to light. Peculiar circumstances attended the robbery. A small safe is usually carried from the through Mexican Central train to the office, and thence to the Guacajuato train by a courier. On the morning of the robbery the express messenger warned the man to be careful of the safe, telling him it contained a large sum of money. Instead of taking the safe to the office the courier took it to his home, called in a number of his friends and opened it. The money was extracted and distributed. Following the discovery of the robbery at Silao about forty persons were arrested, and all except about \$11,000 recovered.

Argument on the life insurance franchise tax cases was completed yesterday in the court of appeals and the court allowed ten days' time for the filing of briefs.

AS TO SPECULATION

SOME TRUTHS IT WILL PAY YOU TO REMEMBER.

"Old Gorgon Graham," Pork Packer, Chicago, Gives a Few Valuable Hints to His Son, Pierrepont—The Only Safe Road to Follow.

Now, I want to give you that tip on the market. There are several reasons why it isn't safe for you to trade on "Change just now, but the particular one is that Graham & Co. will fire you if you do. Trading on margin is a good deal like paddling around the edge of the old swimming hole—it seems safe and easy at first, but before a fellow knows it he has stepped off the edge into deep water. The wheat pit is only thirty feet across, but it reaches clear down to Hell. And trading on margins means trading on the ragged edge of nothing. When a man buys, he's buying something that he hasn't got. And it's been my experience that the net profit on nothing is nil. When a speculator wins he don't stop till he loses, and when he loses he can't stop till he wins.

You have been in the packing business long enough now to know that it takes a bull only thirty seconds to lose his hide; and if you'll believe me when I tell you that they can skin a bear just as quick on "Change, you won't have a Board of Trade Indian using your pelt for a rug during the long winter months.

Because you are the son of a pork packer you may think that you know a little more than the next fellow about paper pork. There's nothing in it. The poorest men on earth are the relations of millionaires. When I sell futures on "Change, they're against hogs that are traveling into dry salt at the rate of one a second, and if the market goes up on me I've got the solid meat to deliver. But, if you lose, the only part of the hog which you can deliver is the squeal.

I wouldn't bear down so hard on this matter if money was the only thing that a fellow could lose on "Change. But if a clerk sells pork, and the market goes down, he's mighty apt to get a lot of ideas with holes in them and bad habits as the small change in his profits. And if the market goes up, he's likely to go short his self-respect to win back his money.

I dwell a little on this matter of speculation because you've got to live next door to the Board of Trade all your life, and it's a safe thing to know something about a neighbor's dogs before you try to pat them. Sure Things, Straight Tips and Dead Catches will come running out to meet you, wagging their tails and looking as innocent as if they hadn't just killed a lamb, but they'll bite. The only safe road to follow in speculation leads straight away from the Board of Trade on the dead run.

Of course the Board of Trade, and every other commercial exchange have their legitimate uses, but all you need to know just now is that speculation by a fellow who never owns more pork at a time than he sees on his breakfast plate isn't one of them. When you become a packer you may go on "Change as a trader; until then you can go there only as a sucker. From "Letters from a Self-Made Merchant to His Son," by George Horace Lorimer. EDEN'S MAY FORECAST.

Huntsville, Ala., May 2—Following is the forecast of Mr. H. K. Edens, formerly of Florence, now of Russellville, for May: The storm periods for May are 1, 2, 5, 7, 9, 12, 13, 16, 20 and 21. As the storms of the first period work past your locality look for very cool nights with touches of frost in many places northward. About the 5th and 6th barometers and thermometers will begin to reverse their conditions—winds will change to southerly, and increasing clouds will grow into violent storms. It will be the part of prudence to watch the clouds with calm vigilance at all the periods of this month and to be prepared for the deadly tornado. On the 10th and 11th prepare for heavy rains, snow and cold wave. It will be very cool generally as this period works off. About the 23th to 28th very warm weather will return and some very destructive storms will result, ending in a return to colder weather.

A PROMINENT COLLEGE MAN.

One of Indiana's Useful Educators Says: "I Feel Like a New Man."

MR. JOHN W. MENG.

Mr. John W. Meng, 54 Jefferson Ave., Indianapolis, Ind., State Representative of Indianapolis Business College, writes:

"I firmly believe that I owe my fine health to Peruna. Constant travel and change of food and water wrought havoc with my stomach, and for months I suffered with indigestion and catarrh of the stomach. I felt that the only thing to do was to give up my occupation which I felt very reluctant to do. Seeing an ad. of Peruna as a specific for catarrh I decided to give it a trial, and used it faithfully for six weeks, when I found that my troubles had all disappeared and I seemed like a new man. I have a bottle of Peruna in my grip all the time, and occasionally take a few doses which keeps me in excellent health."

THE most common phases of summer catarrh are catarrh of the stomach and bowels. Peruna is a specific for summer catarrh. Hon. Willis Brewer, Representative in Congress from Alabama, writes the following letter to Dr. Hartman: House of Representatives, Washington, D. C. The Peruna Medicine Co., Columbus, O.: Gentlemen—"I have used one bottle of Peruna for indigestion, and I take pleasure in recommending it to those who need a good remedy. A tonic it is excellent. In the short time I have used it it has done me a great deal of good."—Willis Brewer. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

McClure went into the Dixon woman's house and began to curse her for notifying his mother to move out of her house. He then threatened the woman and Baker, her brother, interfered and the McClure negro pulled out a pistol and shot.

The past week has been consumed with the hearing of motions and demurrers and the settling of cases. This morning Lucy Augustus was divorced from Frank Augustus, and this is all done in that court today.

Eye Strain Is Nerve Strain

Any excess of nervous expenditure to one organ over the normal amount which should be furnished, is incurred at the expense of other organs. A steady leakage of nervous force through the eyes may not be manifested necessarily in the eyes. Headache, nervousness, indigestion, etc., indicate an exhausted nerve supply which may be the result of eye strain. By relieving the strain we remove the cause and allow nature to set matters right.

A GREAT THING

The Carnival Attractions Will Make Everybody Glad.

Thousands Will Feel Glad They Are Alive.

The greatest panacea on earth for the blues, melancholia or the other kindred troubles of life is the great Ferrari Bros.' Mighty Midway Carnival, which is to be here as the amusement feature of the coming carnival in this city. It is the cure-all for dull hours and the greatest business maker on earth today. The man who feels in the dumps wants a whirl on the midway to convince him that life is worth living after all. When he has had it he is practically a new man. There is so much to see and enjoy with the great aggregation that sorrow takes to the tall timber and gloom "goes away back and sits down," out of an occupation. Among the many features of the colossal aggregation of shows are the magnificent trained wild animal shows which was the feature of the Pan-American and Charleston expositions, the great "Cave of the Winds," the wonderful Cingalese, the first of their native race to leave their native Ceylon; the beautiful Orient, with its camels, elephants, donkeys and people of the Far East; the German village, brimful of fun and frolic; the \$50,000 golden chariots; the mammoth Ferris Wheel; the world-famous dog and monkey circus; Wild Minnie, from far-away Australia, the first of this kind ever placed upon exhibition and the last of an extinguished race; Esau, the wonderful man-ape, the most startling exponent of the Darwinian theory ever seen by mortal man; the finest selection of free acts ever seen with an aggregation of this character, including Speedy, the champion high diver of the world. He is rightfully named, death-defying, daredevil Speedy. The wonderful Ricardo Bros., so long and favorably known with the Barnum and Bailey circus, the greatest show on earth; Coopers' Cycle Sensation, and Van Norman's Spiral Ascent. There are hosts of other attractions too numerous to mention. If you want to be happy and contented and have one week of fun, mirth and merriment, commencing May 11 and ending May 16, come to the Paducah Free Carnival.

Mementoes of Sunflower State. Fourth Assistant Postmaster General Bristow is from Kansas, and the fact was evident during the recent Grand Army encampment in Washington. Friends from the sunflower state brought him splendid specimens of corn, apples, pears and potatoes—all the leading agricultural products of Kansas—and these were hung or strung artistically about his room in the postoffice department.

MEN'S CLOTHING.

We believe veritably that \$10 here will give you choice of a variety of men's suits that would cost you \$15 each elsewhere. The style, fit and workmanship is the best. These suits are made of high grade materials, well lined, sewed together with the best silk thread and made by skilled union labor. Our low prices are made possible only because of our extremely close method of cash buying from first class cash houses and then priced low by us to induce cash buying and thereby enable us to make rapid turn-over of the cash employed in handling our clothing stock. Anybody will understand that by turning our money two or three times where other houses turn it only once that we can afford to make much lower prices.

We ask you to come and look—then buy from us when you get ready. We are good people to make the acquaintance of. We are now making a great May sale of the average \$15 and \$18 suits of exclusive clothing houses. Our May sale price is only \$10 a suit. Just come and see and compare and you will do the rest.

 was lame, I am told, for some time aft-
 erward. I had watched him following
 you from the gate at Bridewell and at
 once recognized him when his mask
 fell off during the fight by the wall.
 You have done well at every step, I
 see."

"Oh, God; to think of it! Had I but
 known! Buckingham shall pay for this
 with his head; but how could I know?
 I was but a poor, distracted girl, sure
 to make some fatal error. I was in
 such agony—your wounds—believe me,
 I suffered more from them than you
 could. Every pain you felt was a pang
 for me—and then that awful marriage!
 I was being sold like a wretched slave
 to that old squire, to be gloated over
 and feasted upon. No man can know
 the horror of that thought to a woman
 —to any woman, good or bad. To have
 one's beauty turn to curse her and
 make her desirable only—as well
 fed cattle are prized. No matter how
 great the manifestation of such so
 called love, it all the more repels a
 woman and adds to her loathing day
 by day. Then there was something
 worse than all"—she was almost weep-
 ing now—"I might have been able to
 bear the thought even of that hideous
 marriage—others have lived through
 the like—but after—that—that day—
 when you—it seemed that your
 touch was a spark dropped into a heart
 full of tinder, which had been lying
 there awaiting it all these years. In
 that one moment the flame grew so in-
 tense I could not withstand it. My
 throat ached; I could scarcely breathe,
 and it seemed that my heart would
 burst." Here the tears gushed forth as
 she took a step toward him with out-
 stretched arms and said between sobs:
 "I wanted you, for my husband—
 for my husband, and I could not bear
 the torturing thought of losing you or
 enduring any other man. I could not
 give you up after that—it was all too
 late, too late; it had gone too far. I
 was lost, lost!"

He sprang to where she stood lean-
 ing toward him and caught her to his
 breast.

She held him from her while she
 said: "Now you know—now you know
 that I would not have left you in that
 terrible place had I known it. No, not
 if it had taken my life to buy your
 freedom."

"I do know; I do know. Be sure of
 that. I know it and shall know it al-
 ways, whatever happens; nothing can
 change me. I will never doubt you
 again. It is my turn to ask forgiveness
 now."

"No, no. Just forgive me. That is all
 I ask." And her head was on his breast.
 "Let us step out into the passageway,"
 Edwin said, and we did. There
 were times when Jane seemed to be in-
 spirited.

When we went back into the room,
 Mary and Brandon were sitting in the
 window-way on his great cloak. They
 rose and came to us, holding each other's
 hands, and Mary asked, looking up to
 him:

"Shall we tell them?"
 "As you like, my lady."

Mary was willing, and looked for
 Brandon to speak, so he said, "This
 lady whom I hold by the hand and my-
 self have promised each other before
 the good God to be husband and wife
 if fortune ever so favor us that it be
 possible."

"No; that is not it," interrupted Mary.
 "There is no 'if' in it. It shall be
 whether it is possible or not. Nothing
 shall prevent." At this she kissed Jane
 and told her how she loved her, and
 gave me her hand, for her love was so
 great within her that it overflowed
 upon every one. She, however, always
 had a plenitude of love for Jane, and
 though she might scold her and appar-
 ently misuse her, Jane was as dear as
 a sister and was always sure of her
 steadfast, tried and lasting affection.

After Mary had said there should be
 no "if" Brandon replied:
 "Very well, Mm. Destiny." Then,
 turning to us, "What ought I to do for
 one who is willing to stoop from so
 high an estate to honor me and be my
 wife?"

"Love her and her alone with your
 whole heart as long as you live. That
 is all she wants, I am sure," volun-
 teered Jane sentimentally.

"Jane, you are a Mm. Solomon,"
 said Mary, with a tone of her old time
 laugh. "Is the course you advise as you
 would wish to be done by?" And she
 glanced mischievously from Jane to me
 as the laugh bubbled up from her heart,
 merry and soft, as if it had not come
 from what was but now the home of
 grief and pain.

"I know nothing about how I should
 like to be done by," said Jane, with a
 pout, "but if you have such respect for
 my wisdom I will offer a little more. I
 ink it is time we should be going."

In an instant Mary's eyes shot fire,
 and her face was like the blackest
 stormcloud.

"Carry this to the king: That I will
 see him and the whole kingdom sunk
 in hell before I will marry Louis of
 France. That is my answer once and
 for all. Good even, Master Wolsey." And
 she swept out of the room with
 head up and dilating nostrils, the very
 picture of defiance.

After Wolsey had gone Jane said to
 Mary: "Don't you think it would have
 been better had you sent a softer an-
 swer to your brother? I believe you
 could reach his heart even now if you
 were to make the effort. You have not
 tried in this matter as you did in the
 others."

"Perhaps you are right, Jane. I will
 go to Henry."

Mary waited until she knew the king
 was alone, and then went to him.
 On entering the room she said:
 "Brother, I sent a hasty message to you
 by the bishop of Lincoln this morning,
 and have come to ask your forgive-
 ness."

"Ah, little sister, I thought you would
 change your mind. Now you are a
 good girl."

"Oh, do not misunderstand me. I
 asked your forgiveness for the mes-
 sage. As to the marriage, I came to tell
 you that it would kill me and that I
 could not bear it. Oh, brother, you are
 not a woman. You cannot know." Henry
 flew into a passion and, with
 oaths and curses, ordered her to leave
 him unless she was ready to give her
 consent. She had but two courses to
 take, so she left with her heart full of
 hatred for the most brutal wretch who
 ever sat upon a throne, and that is
 making an extreme case. As she was
 going she turned upon him like a fury
 and exclaimed:

"Never, never! Do you hear? Never!"
 Preparations went on for the mar-
 riage just as if Mary had given her
 solemn consent. The important work
 of providing the trousseau began at
 once. When the queen went to her with
 silks and taffetas and fine cloths to
 consult about the trousseau, although
 the theme was one which would inter-
 est almost any woman, she would have
 none of it, and when Catherine insisted
 upon her trying on a certain gown she
 called her a blackamoore, tore the gar-
 ment to pieces and ordered her to leave
 the room.

Henry sent Wolsey to tell her that
 the 13th day of August had been fixed
 upon as the day of the marriage, De
 Longueville to act as the French
 king's proxy, and Wolsey was glad to
 come off with his life.

Matters were getting into a pretty
 tangle at the palace. Mary would not
 speak to the king, and poor Catherine
 was afraid to come within arm's length
 of her. Wolsey was glad to keep out of
 her way, and she flew at Buckingham
 with talons and beak upon first sight.
 As to the battle with Buckingham,
 it was short, but decisive, and this was
 the way it came about: There had been
 a passage between the duke and Bran-
 don, in which the latter had tried to
 coax the former into a duel, the only
 way of course to settle the weighty
 matters between them. Buckingham,
 however, had had a taste of Brandon's
 nimble sword play and, bearing in
 mind Judson's fate, did not care for
 any more. They had met by accident,
 and Brandon, full of smiles and as po-
 lite as a Frenchman, greeted him.

"Doubtless my lord, having crossed
 swords twice with me, will do me the
 great honor to grant that privilege the
 third time and will kindly tell me
 where my friend can wait upon a
 friend of his grace."

"There is no need for us to meet over
 that little affair. You had the best of
 it, and if I am satisfied you should be.
 I was really in the wrong, but I did
 not know the princess had invited you
 to her ball."

"Your lordship is pleased to evade,"
 returned Brandon. "It is not the ball-
 room matter that I have to complain
 of. As you have rightly said, if you are
 satisfied I certainly should be, but it is
 that your lordship, in the name of the
 king, instructed the keeper of Newgate
 prison to confine me in an underground
 cell and prohibited communication with
 any of my friends. You so arranged it
 that my trial should be secret both as
 to the day thereof and the event, in or-
 der that it should not be known to
 those who might be interested in my
 release. You promised the Lady Mary
 that you would procure my liberty, and
 thereby prevented her going to the
 king for that purpose, and afterward
 told her that it had all been done, as
 promised, and that I had escaped to
 New Spain. It is because of this, my
 Lord Buckingham, that I now de-
 nounce you as a liar, a coward and a
 perjured knight, and demand of you
 such satisfaction as one man can give
 to another for mortal injury. If you
 refuse, I will kill you as I would a cut-
 throat the next time I meet you."

(TO BE CONTINUED.)
 Throngs greeted the presidential
 party in Kansas City.

FOR BLOOD
AND NERVES

Greatest of All Remedies,
PAINE'S CELERY COMPOUND

Today your friends and neighbors
 are using woman's friend, Paine's Cel-
 ery Compound, and are getting rid of
 their burdens and troubles. If you
 are observant, you will note that your
 woman friends are putting on flesh,
 they are blessed with renewed vigor,
 elastic step, bright eyes, clear complex-
 ion, all of which are true indications
 of a new and better health. Why suffer
 when you can secure the same bless-
 ings? Why deny yourself the happi-
 ness of true womanly life when Paine's
 Celery Compound is able to make you
 as healthy and attractive as other wo-
 men are? Mrs. Gladys Riblett, Peo-
 ria, Ill., says:
 "For more than twelve years I have
 been a most miserable sufferer from
 female weaknesses, and our family
 physician seemed to do me no good. I
 had great trouble with my lungs, and
 last year was advised to seek a change
 of climate or else prepare for death, as
 I was rapidly contracting consump-
 tion. I weighed but 83 pounds when
 six months ago I began the use of
 Paine's Celery Compound. Now I
 can sew all day, do a hard washing
 and all my housework, sleep as sweet-
 ly as a babe, and rise in the morning
 rested and refreshed. Six bottles of
 Paine's Celery Compound was all I
 needed to completely cure me, and in-
 stead of dying, as predicted, I now
 weigh 145 pounds, my lungs are all
 right, and I feel assured of my health
 and comfort in the future."

On the Scales

A great many interesting facts may be discovered with a pair of scales, but it is doubtful if any single fact will be more interesting and valuable to the average woman than the weight of her shoes.

For this tells her the number of ounces that must be lifted thousands of times each day, and a little calculation will show that she lifts tons of shoe leather a day—no small labor in itself.

The "Dorothy Dodd" shoe saves the lifting of more than one and one-half tons every day. A pair of "Dorothy Dodd" shoes are several ounces lighter than ordinary shoes. The feet are just so much more comfortable, and you are so much less tired. Put a pair to the test!

Fish at 23,000 Feet.
The statistician has been at work again. On the arrival of the United States Fish Commission steamship Albatross, which recently explored the ocean to a depth of 23,000 feet, the man of figures has calculated that the pressure of water is so great at that depth that a fish ten feet in length must support a weight equal to a large building.

THE FRANK DISASTER.

INTELLIGENT MINER GIVES A THRILLING ACCOUNT OF HIS EXPERIENCE.

Frank, N. W. T., May 2—Daniel M. Mackenzie, an intelligent miner, gives a thrilling account of the experiences of himself and companions, who were imprisoned in the mines for more than twelve hours by the great landslide, and who eventually escaped by digging through forty feet of rock and debris.

"Three other miners and myself, working a cross cut off from No. 8, mainway," says Mackenzie, "were imprisoned between a chute board and the coal. I went down to the lower entry to see how the water was rising. I found the run quite alarming and figured out that at the rate it was coming up we must expect it to flood the mine today about 4 o'clock. We selected a place near the mouth of the main entry and started to work. We timbered as best we could as we went toward the surface. We had worked changing hands for more than five hours, when, as I was punching with a bar it suddenly went through the debris and a breath of air greeted me. I gave a few more punches and a rock big enough to kill us fell in. When we saw we had reached the surface we were mad with delight."

IN POLICE COURT.

He was knocked in the head by some merchant on Second street and the police are not troubling themselves in finding the man.

The breach of the peace case against Tom Roy and Leon Calhoun, colored, was continued.

The case against Andrew Boyd, colored, for vagrancy was continued.
